CAMBRIDGE NATIONALS
CHILD DEVELOPMENT
CURRICULUM OVERVIEW

MRS A T MCAVOY

September 2021

WE AIM FOR ALL HALLOWS RC
BUSINESS, ENTERPRISE AND SPORTS COLLEGE TO BE A
CATHOLIC SCHOOL
TO WHICH CHILDREN WISH TO COME
TO WHICH PARENTS WISH TO SEND THEIR CHILDREN
AND WHERE TEACHERS
WISH TO TEACH

OUR MISSION IS TO OFFER A
HIGH QUALITY
CATHOLIC EDUCATION
FOR ALL, IN AN ENVIRONMENT WHERE
GOSPEL VALUES ARE CENTRAL
TO TEACHING AND LEARNING
AND IN WHICH THE
UNIQUE VALUE
OF EACH PERSON IS
RECOGNISED AND RESPECTED

Curriculum Intent

At All Hallows we are proud to offer the Cambridge Nationals Level 2 Certificate in Child Development. This vocational course provides students with the knowledge and understanding to become well rounded adults who have the ability to nurture children through their own personal lives or as a professional. We aim to provide the students with the knowledge to understand the importance of reproduction, antenatal care, postnatal care and how to safely look after a young child in order to give them the best start in their lives.

The Child Development course is based on real life experiences and will enable them to gain practical experience of aspects of Child Development and work with young children. The course has an equal focus on both examination and course work enabling students to demonstrate their ability to learn and apply the syllabus to personal case studies.

The course teaches our students that the responsibility for the well-being of a child starts before conception and this examination unit aims to provide learners with an overview of the roles and responsibilities of parenthood alongside an understanding of reproduction and pre-conceptual, antenatal and postnatal care, conditions for development, childhood illnesses and child safety.

The learners will develop an appreciation of the importance of creating the best conditions for a child to thrive. This includes creating a child-friendly home environment, including social safety and the care, management and prevention of childhood illnesses.

In the coursework module students will be able to gain personal first hand experiences of how to prepare a nursery setting with appropriate equipment and develop feeding options for young children. The child study will include researching, planning and carrying out activities with a child and observing and evaluating these activities, as well as comparing the child to the expected development norms. Researching, planning, observing and evaluating skills would be useful in further studies as these are transferable skills and could be applied to many subject areas.

KS4 Order of Teaching 2021/2022

	Term 1		Term 2		Term 3	
Year 9				PreConception Health Contraception RO18	Labour and Birth RO18	Needs of the newborn RO18
Year 10	Equipment for 0-12 months RO19	Equipment 1-5 RO19	Nutritional requirements 0-12 Months RO19	Nutrition 1-5years RO19	Practical assessment Food Prep	Exam Revision
Year 11	Developmental Norms RO20	P.I.E.S RO20	Importance of play RO20	Planning Delivering and Evaluating Activities RO20	Practical assessment Under 5s RO20	Exam Revision Coursework Catch up RO18
